Rabat Sale
Kenitra,Rabat,Rabat,Madin
at Al Irfane10112

Gender:

Female

Task entry points must display all prerequisites (time estimates, system requirements, permissions needed) before any action buttons

Information Processing, Risk Aversion

Location

Main form area

Inclusivity Bug

No clear indication of how long the card generation process will take

Recommendation

Add an estimated processing time for card generation at the top of the form

Each task description must contain four components: what (definition), why (purpose), how (steps), when (timing/schedule)

Information Processing, Learning Style

Location

'Mask It' checkboxes

Inclusivity Bug

Missing explanation of why certain fields can be masked and others cannot

Recommendation

Add tooltip or help text explaining the purpose and implications of masking different fields

Multi-step processes must maintain a progress tracker which shows the current position, total steps, and next action

Learning Style, Information Processing

Location

Overall interface

Inclusivity Bug

No progress indicator for the card generation process

Recommendation

Add a progress bar or step indicator showing where user is in the overall card generation process

Any request for user data must be accompanied by a clear explanation of its purpose and usage

Risk Aversion, Computer Self-Efficacy

Location

Form fields

Inclusivity Bug

No explanation of how the collected data will be used or stored

Recommendation

Add privacy information explaining data usage, storage duration, and security measures

Complex or dense content should be layered with clear expansion mechanisms for additional details.

Information Processing, Motivations

Location

Form layout

Inclusivity Bug

All form fields are presented at once without proper organization

Recommendation

Group related fields into expandable sections (e.g., 'Personal Information', 'Contact Details', 'Address')
